It's a dream that beats in time
Blowing winds in my mind
Flowing, falling, creating change
Pulling heart strings, rearrange
It's tapping feet, tapping souls
Passions moving through me
This language of love, of light, of loss
Hold me and undo me
Giving wings of life, a gift, a right
To all of us in need
Take my hand, stand and soar
Help us heal and breathe!

Let Music Fill my World
Let Music Fill my World
With Music in the World
It's a Better World

Let Music Fill my World
Let Music Fill my World
With Music in the World
It's a Better World

Empty choir room, empty practice room
I can't hear, no music there

They cut the cord, the chords, heartbreak
The piano now nowhere
There's melody in our scribbles
There's harmony in our sighs
The beat of sounds of school, of chaos
No teacher, tell me why?
Hear my voice, hear me now
We love music, sing out loud

Let Music Fill my World
Let Music Fill my World
With Music in the World
It's a Better World

Let Music Fill my World
Let Music Fill my World
With Music in the World
It's a Better World

Music is the sole root in our society
It holds tradition, cultural, and personal values in everyone
It aids in our imagination of our memories, experience, and emotions
Through the creativity of others
If you create your own music, you can speak to any heart

With music in the world
With music in the world
With music in the world, it's a better world
With music in the world
With music in the world
With music in the world, it's a better world
Hear my voice
Hear me now

Let Music Fill my World
Let Music Fill my World
With Music in the World
It's a Better World

I own my master voice
Together we're one
And I hope that's true
For me and you
